[Portfolio](#)

Frontend Developer specializing in React, Next.js, and Angular, with strong proficiency in TypeScript and modern CSS frameworks like Tailwind. Experienced in building responsive, high-performance web applications — from translating Figma designs into pixel-perfect UIs to integrating RESTful APIs and implementing state management solutions with Redux and Context API. Focused on clean code architecture, performance optimization, and delivering seamless user experiences across all devices and browsers.

On the mobile side, experienced in cross-platform development with Flutter and React Native for both iOS and Android. Has delivered production-ready applications with Riverpod and Redux for state management, Dio and Axios for API integration, and Firebase services for authentication, real-time data, and push notifications. Follows platform-specific design standards and best practices to ensure native-quality experiences on both platforms.

## EXPERIENCE

### Frontend Developer

*Deployers* | May 2024 – Present

- Developed and maintained Next.js applications using SSR and API routes to improve SEO and performance
- Built responsive web applications with React, utilizing modern hooks, custom hooks, and Context API for state management
- Designed pixel-perfect, responsive layouts using Tailwind CSS, CSS Grid, and Flexbox
- Created reusable React component libraries with TypeScript, reducing code duplication by **40%**
- Integrated RESTful APIs and optimized data fetching with Axios
- Improved application performance through code splitting, lazy loading, and image optimization
- Collaborated with designers via Figma and participated in code reviews and CI/CD workflows

### Mobile Developer

*İş Anahtarı* | December 2024 – Present

- Developed a cross-platform mobile application using Flutter and Dart for an end-to-end job search and recruitment platform
- Implemented Dio for HTTP client management including interceptors, centralized error handling, retry logic, and token refresh mechanisms
- Applied Riverpod for state management to build a scalable and maintainable architecture with dependency injection
- Improved performance through lazy loading, image caching, efficient list rendering, and memory optimization for smooth iOS and Android experience

- Integrated RESTful APIs in collaboration with the backend team, supporting authentication, data synchronization, and real-time updates

## Frontend & Mobile Developer

*Deploiers* | May 2024 – Present

- Developed and maintained Next.js applications using SSR and API routes to improve SEO and performance
- Built responsive web applications with React, utilizing modern hooks, custom hooks, and Context API for state management
- Created reusable React component libraries with TypeScript, reducing code duplication by 40%
- Developed cross-platform mobile applications using React Native for iOS and Android platforms
- Integrated third-party services including Firebase (authentication, analytics, push notifications) and external SDKs
- Designed pixel-perfect, responsive layouts using Tailwind CSS, CSS Grid, and Flexbox
- Collaborated with designers via Figma and participated in code reviews and CI/CD workflows

## Frontend Developer

*MFATECH* | November 2024 – February 2025

- Developed SPAs using React and TypeScript following clean architecture principles
- Implemented Redux and Redux Toolkit for complex state management
- Worked closely with backend teams to integrate RESTful APIs with proper error handling and validation
- Optimized performance using React DevTools and Chrome Performance tools
- Built mobile-first, responsive designs ensuring cross-browser compatibility
- Participated in Agile ceremonies including sprint planning and retrospectives

## EDUCATION

### Bachelor of Computer Engineering

Istanbul Aydin University | 2021 – Present

GPA: 3.26 / 4.00

### Relevant Coursework:

Data Structures & Algorithms, Software Engineering, Web Development, Database Systems, Object-Oriented Programming

## SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Mobile Development:** Flutter, React Native, Dart
- **Frameworks & Libraries:** React.js, Next.js, Angular
- **Mobile Development:** React Native, Flutter
- **State Management:** Redux, Redux Toolkit, Context API, Riverpod

- **Backend & APIs:** RESTful APIs, Dio, Axios, Firebase (Auth, Firestore, Cloud Messaging, Analytics)
- **UI Libraries:** Tailwind CSS, Material UI, ShadCN, Material Design
- **Version Control:** Git, GitHub
- **Development Tools:** VS Code, npm, Node.js,
- **Other Skills:** Responsive Design, Cross-Platform Development, Performance Optimization, App Store & Play Store Deployment

## PROJECTS

### İş Anahtarı – Job Search Platform

*Technologies: Flutter, Dart, Riverpod, Dio*

Cross-platform job search and recruitment application with advanced job search filters, application tracking, and user profile management. Implemented Riverpod for state management and Dio for RESTful API integration, focusing on clean architecture across iOS and Android.

### MindTrack – Habit Tracker

*Technologies: React Native, Firebase*

Cross-platform habit tracking application with user authentication, real-time Firestore data storage, and push notifications. Features a clean, intuitive mobile UI with smooth animations and platform-specific design patterns.

### Talk & Write

*Technologies: HTML, CSS, JavaScript*

Developed an interactive web application enabling users to communicate through text and speech. Implemented responsive design and modern JavaScript features to enhance accessibility and user experience.

### TrendyNow

*Technologies: HTML, CSS, JavaScript*

Created a modern e-commerce frontend showcasing trending products. Built responsive layouts using CSS Grid and Flexbox, and implemented dynamic content rendering with vanilla JavaScript.

### TODO-APP

*Technologies: Angular*

Built a task management application using Angular. Implemented CRUD operations, component-based architecture, and two-way data binding. Used Angular services for state management and followed TypeScript best practices.

## CERTIFICATIONS

- React JS: Uygulamalı React JS - Redux Eğitimi (Udemy, April 2024)
- React 101 (Turkcell Geleceği Yazanlar, July 2024)
- React 201 (Turkcell Geleceği Yazanlar, August 2024)
- React 301 (Turkcell Geleceği Yazanlar, August 2024)
- React 401 (Turkcell Geleceği Yazanlar, October 2024)
- Angular | Baştan Sona Uygulamalı Angular Eğitimi (Udemy, August 2024)

## **LANGUAGES**

- Turkish: Native
- English: Upper Intermediate (B2)

## **INTERESTS & HOBBIES**

- Playing musical instruments
- Reading books
- Coding and software development
- Knitting
- Playing sports
